

4700

This technical drawing shows a mechanical assembly centered within a large, irregular, cloud-like boundary. The assembly consists of a central rectangular component with a series of vertical fins or a cooling coil on its left side. Above this central component is a vertical stack of four rectangular sections, each with a semi-circular protrusion on its right side. To the right of the central component is a curved, hook-like structure. Dimension lines with arrows indicate the overall width of the assembly as 4700 and a specific width of the upper section as 1607.
